Certified 38 schools

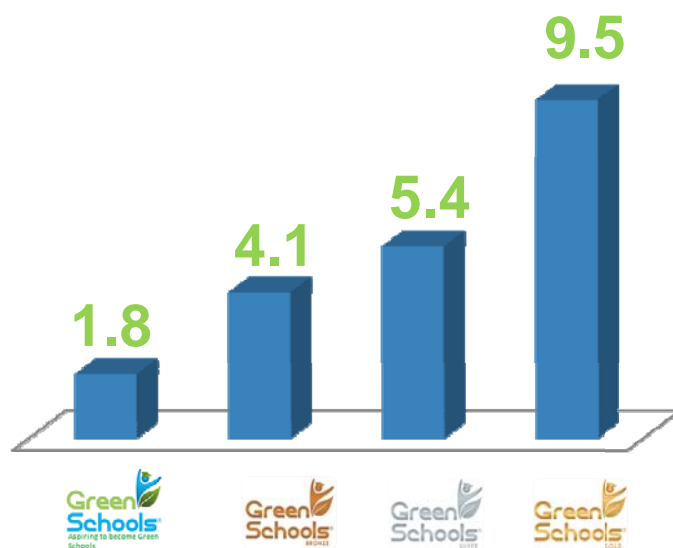

Public & Private, all over Lebanon

Recognized locally and internationally

Energy Efficiency Category

- Accounts for 25.5% of the certification score
- Includes 13 measures eq. to 15 GPs (out of 59 GPs)
- How schools scored this category in average (in GPs):

Green Schools PLATINUM
No Platinum certified Schools yet

Energy Efficiency Category

Examples of measures:

- Energy efficient lighting systems
- Solar water heating systems
- Photovoltaic systems
- Energy efficient cooling/heating
- Wall & windows insulation
- Energy efficient equipment
- Eco-friendly modes of transportation

Etc.

Working in Partnerships

MOU signed with  **FRANSABANK** to support
The financing of energy solutions implementation
at schools

November 2016

Working in Partnerships

- Fransabank offered energy walk-throughs to schools to help them assess the energy efficiency and renewable energy projects that will help them reduce their energy consumption and consequently their electricity bills.

Working in Partnerships

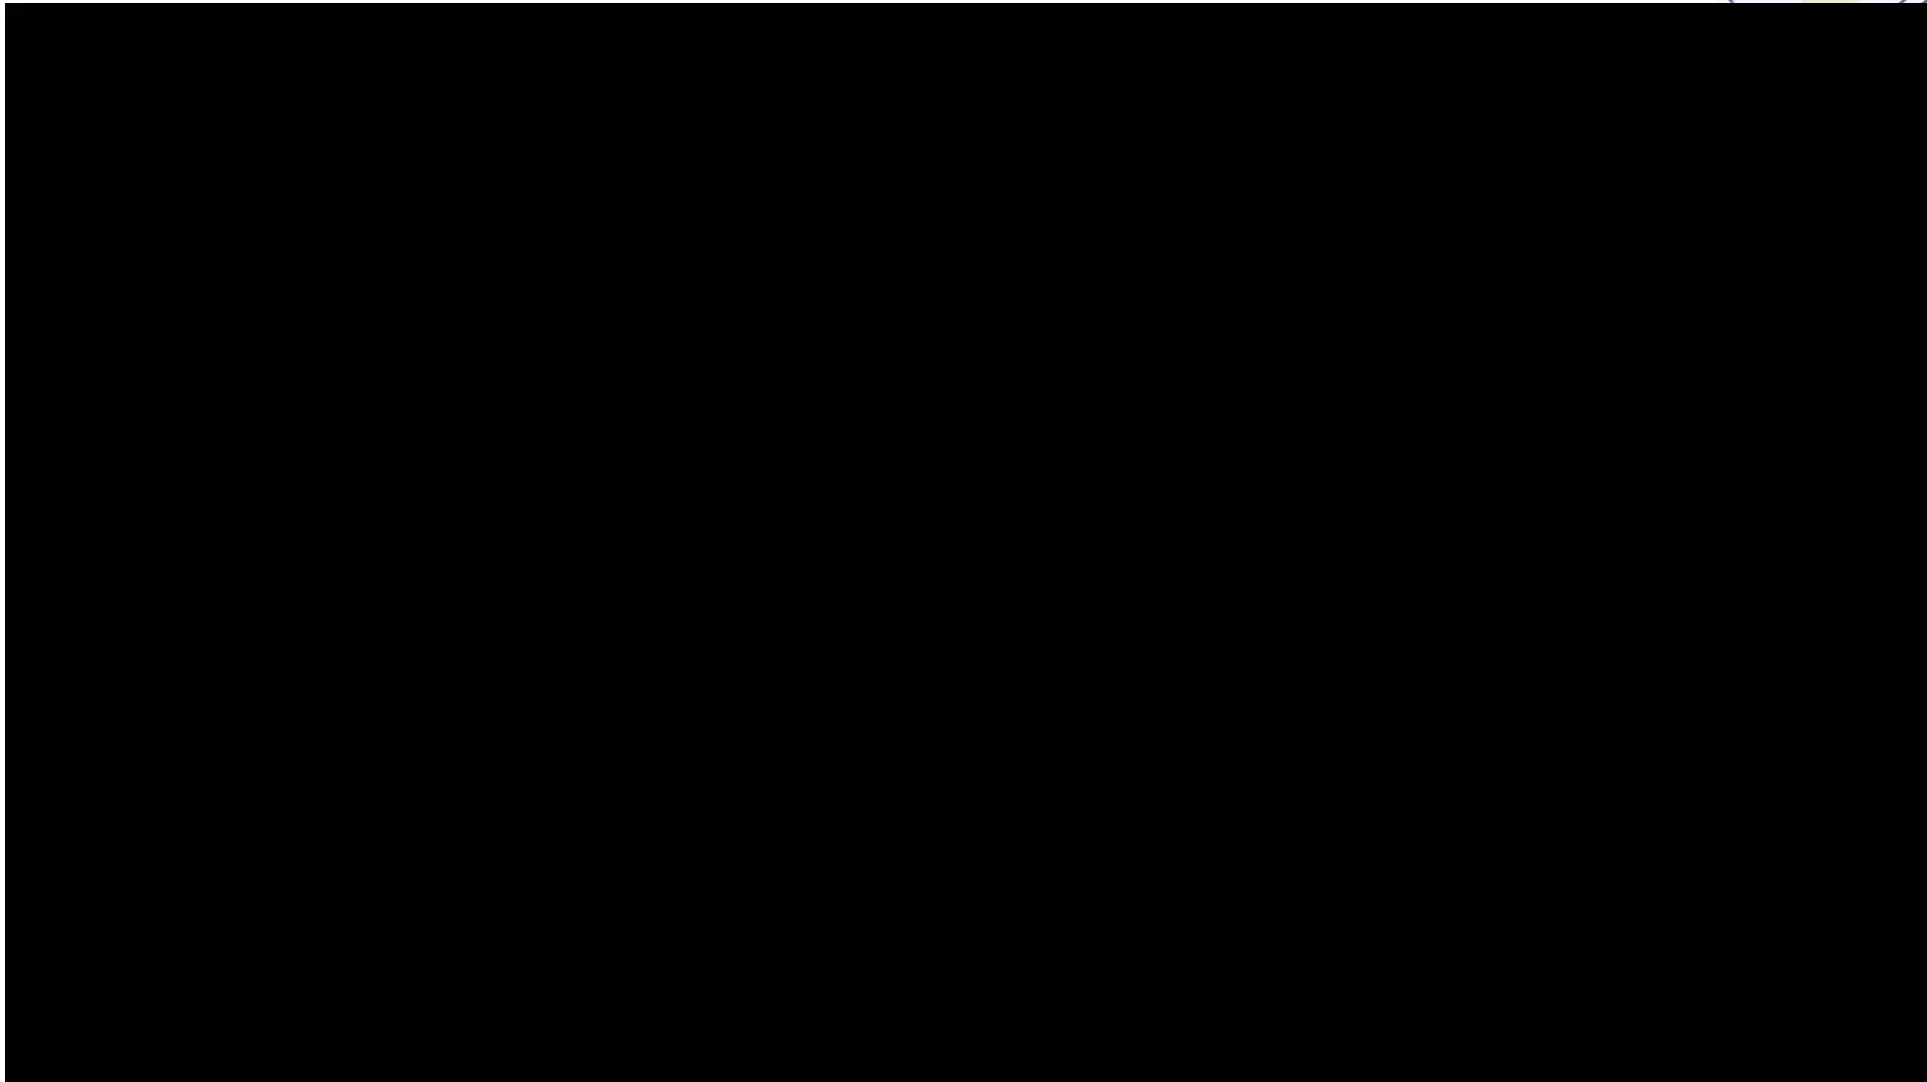

- Special meetings with schools are organized to raise awareness, facilitate their engagement and provide all the needed support.

Media Campaign

TVs, Radios, Cinemas, Social Media, etc.

A BIG THANK YOU
