

Funded by

TA Support

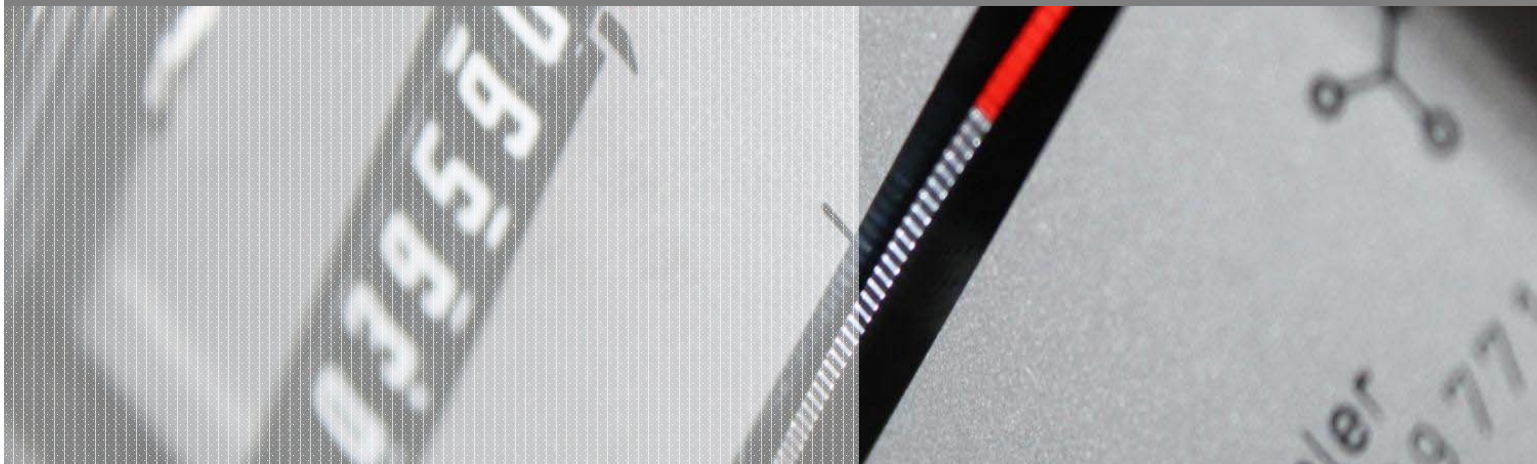

Co-funded by
the European Union

Promoted by

Lebanon Energy Efficiency and Renewable Energy Finance Facility

Facility Launch
Beirut, 28th September 2018

Implemented by:

LEEREFF Components

1

Funding EUR 80 million

2

Interest Rate

3

Technical Assistance

Co-funded by
the European Union

Technical Assistance

**Pipeline Development
and Project Assessment**

**Training and Capacity
Building**

Marketing

**Project Monitoring and
Verification**

Support to Banks, Investors and Project Developers

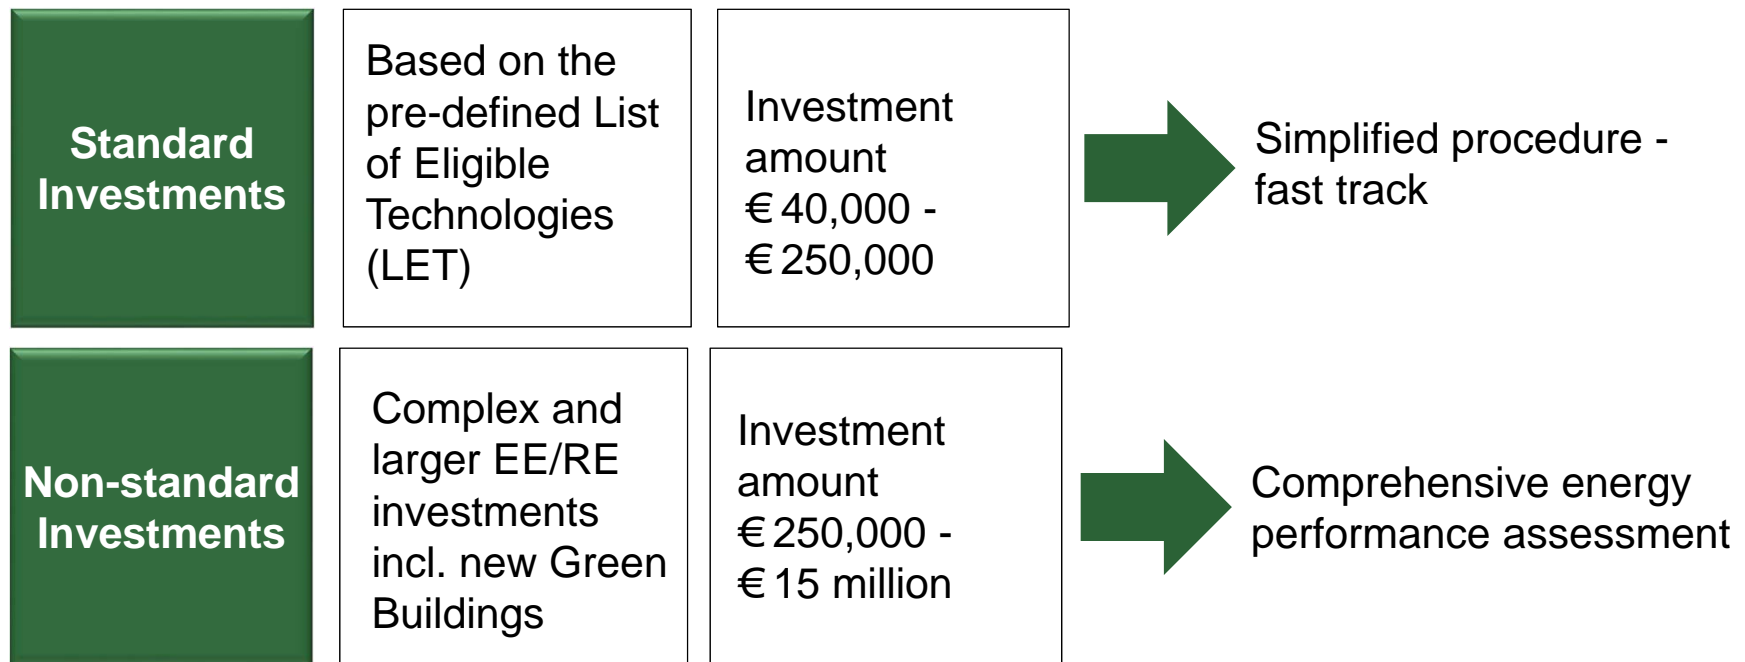

TA Team Composition

- EE/RE Engineers
- Energy Finance Experts
- Marketing and Training Experts

Technical Assistance is free-of-charge

Investment Types

- ❑ Simplified assessments for standard investments
- ❑ Reduced processing time and transaction costs

List of Eligible Technologies (LET)

Selection Criteria and Methodology

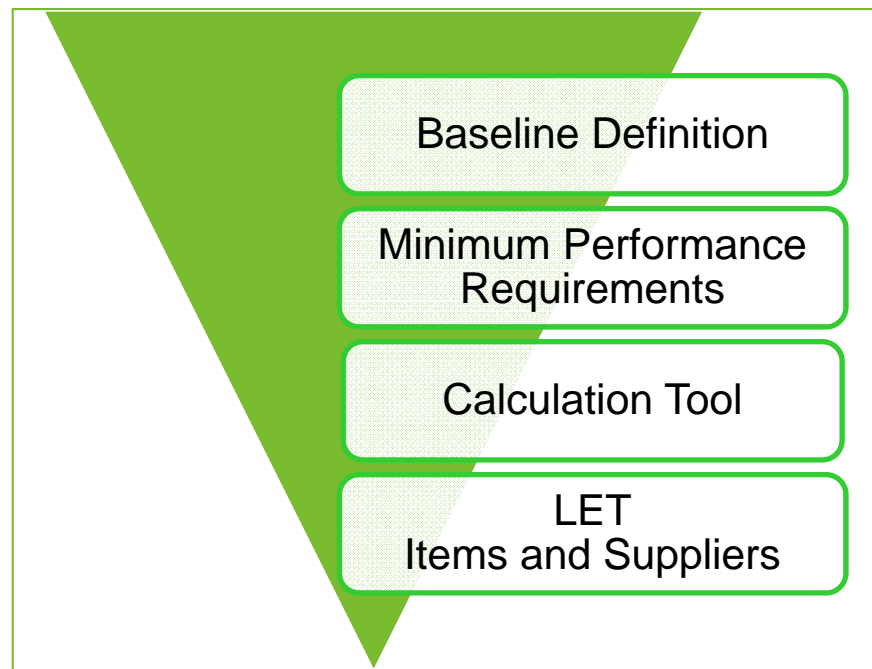

Selection Criteria

- EE improvements
- Simple to calculate
- In demand
- Available in Lebanon

LET is an open and continuously updated list

Methodology

No approval of assessment reports is needed if a technology item is included in LET

List of Eligible Technologies

List of Pre-Assessed Technologies in Excel

Standard Investments

Calculation Tool for Banks

- ❑ Web-based tool integrated into the LEEREFF database
- ❑ Calculation of relevant energy saving indicators and financial viability parameters
- ❑ Generation of eligibility certificates

Banks will be able to process standard investments without further engineering input

Non-standard Investments

Requested documents for eligibility assessment

- Energy audits, feasibility studies or other technical studies
- Supplier contracts with technical specifications
- Equipment brochures
- Photo documentation
- ...

The assessment process of non-standard Investments includes site visits and assessment/review of supporting technical documents
