

25 - 27 SEPTEMBER 2019
LE ROYAL HOTEL- DBAYEH

10th EDITION

FUTURE OF LIFE IN A TIME OF PLANETARY CHANGE

The World is witnessing massive changes as a result of the accelerated damages of climate change. The ability of the world population to cope with the changes, to mitigate their effects, and to adapt to their impacts poses a tough responsibility on policy makers, energy leaders, technology developers, and most importantly energypreneurs.

Facing an increasingly visible pressure, world leaders are betting on a Global Energy Transformation, a leapfrog in terms of energy supply counting solely on renewable energies, in terms of efficient use of energy focusing primarily on a wise utilization of energy resources, and in terms of a behavioral culture change relying on the human capital. In a time of planetary change, the future of life, in all its aspects, is being questioned today.

Circular economy, galvanizing renewables with blockchain, renewable energy auctions, unbundling electricity grids, and internet of things (IOT) are only some terms that would definitely shape the future of life. Energypreneurs need to lead the way towards a better future. The 10th edition of the International Beirut Energy Forum will be a distinguished spot to gather energy leaders from around the world in order to actually meet and forge a better energy future, not only in Lebanon, but also in the Arab World and the Mediterranean.

Lebanon will be hosting and celebrating the 10th anniversary of an event that has become an annual gathering for energy professionals from all over the globe. The synergy that the International Beirut Energy Forum has created over the past 9 years reconfirmed its reputation as a lighthouse for development, dialogue, hope, and progress towards the future of life in a time of planetary change.

At the International Beirut Energy Forum (IBEF) 2019, local and international energypreneurs will be meeting, exchanging views, creating business links, and developing financing schemes for the entire spectrum of sustainable energy. Participants in the 10th International Beirut Energy Forum 2019 will work altogether to grapple with a world that is more volatile and more complex, yet demands greater agility, more speed, and more digital competence.

FUTURE OF LIFE IN A TIME OF PLANETARY CHANGE

At the International Beirut Energy Forum 2019, engineers, bankers, decision makers, heads of corporations, universities professors and researchers, representatives of states and governments will meet together and join efforts to develop the sustainable energy market, thus expanding the investment frontiers.

It is clear that our world needs exceptional efforts from all concerned parties to rethink energy strategies, to adapt to environmental challenges, and to find sustainable solutions. Lebanon is striving to have a distinguished added-value in this regard, not only nationally, but also regionally and internationally. Whether through national partnerships and initiatives, or through regional cooperation and international collaboration, Lebanon aims to keep-up with the digitalization of the sustainable energy sector, aiming at becoming a beacon for the entire region.

Join us to celebrate the 10th anniversary of the International Beirut Energy Forum 2019!

THE FORUM IS INTERACTIVE

Presentation/keynote:

a short presentation focused on a specific case study or experience to highlight your expertise on a particular topic.

Side event:

Important side events hosted by different partners will be scheduled during IBEF.

Panel:

a one hour interactive, moderated discussion on stage featuring 3-4 panelists and audience Q&A throughout. There's no presentation or PowerPoint slides needed.

Exhibition:

showcasing the latest products, solutions and services and offering unlimited networking opportunities

THE LEADING RENEWABLE ENERGY FORUM IN LEBANON

The International Beirut Energy Forum is one of the most reputable and professional energy events in the Middle East that is specifically dedicated to sustainable energy issues and projects. IBEF is by far the biggest forum in Lebanon attracting key energy people from Lebanon, the Arab World, and the international community. The event is the main yearly platform to discuss all topics related to renewable energy, energy efficiency, and green buildings.

Held on a yearly basis since 2010, the event attracted more than 1320 delegates in the ninth edition of 2018, imposing itself as the leading yearly gathering of energy professionals of the Arab World.

In 2019, The International Beirut Energy Forum will celebrate its 10th anniversary from 25 to 27 September 2019 at Le Royal Hotel Dbayeh, and is expected to attract more than 1,500 delegates.

THE SUPPORTERS

The International Beirut Energy Forum receives the support and participation of a large number of key players in the energy sector. The main supporters of the event are the League of Arab States (LAS), the European Union (EU), the Central Bank of Lebanon (BDL), the United Nations Development Programme (UNDP), the Regional Center for Renewable Energy and Energy Efficiency (RCREEE).

Organized by MCE GROUP and in strategic partnership with The Lebanese Center for Energy Conservation (LCEC), the forum is in collaboration with the ASHRAE Lebanon Chapter, the Lebanese Solar Energy Society, the Lebanon Green Building Council (LGBC).

Since 2013, IBEF has also become the main event of the Lebanon Committee of the World Energy Council (WEC).

ORGANIZED BY

In the 10th edition, the forum will continue its legacy as one of the leading event in the region related to renewable energy and energy efficiency offering a national and regional platform for individuals, engineers, bankers, decision makers, corporations, universities, and even states and governments to share experiences, to develop right policies and reliable technical solutions for the bright future of our planet.

The 9th edition of the congress presented parallel conferences and 12 events in one event for Lebanese, regional and international organizations.

The stimulating business-focused atmosphere was clearly felt by all during the three-day event **with the announcement of several bids in the renewable energy sector** making the International Beirut Energy Forum 2018 the most successful edition thus far for exhibitors and delegates alike.

EXHIBIT & SPONSOR IN THE LIGHT

It's a working gathering rooted in today's issues and firmly forward looking. It brings together professionals, policymakers, banks, practitioners, donors, academics and private companies to meet and discuss the latest updates related to the energy sector in Lebanon, the Arab World and the international scene.

It is the place where officials from the public sector meet private sector representatives and discuss the future of the sustainable energy sector in Lebanon and the region.

EXHIBITOR & SPONSOR PROFILE

Energy

Solar | Wind | Biofuel | Biomass | Waste to Energy | Carbon Management | Geothermal

Green Buildings

Building technologies | Urban Planners Architects | Green Products, Practices and Technologies | Low Energy Architecture

Others

Banks & Financial Institutions | Investments Firms | Research & Development Institutions | Independent Power & Energy Producers | Associations & Agencies

Clean Environment & Transport

Sustainable Transport | Environment Friendly Vehicles | Road Services | Street Cleaning | Technical Facilities

**BENEFITS
FROM
TAKING PART**

- ... Position your company as a market leader in the future energy and environmental fields
- ... Provide positive brand alignment to the global debate on future energy resources
- ... Benefit from a range of networking opportunities at the event
- ... Gain from a direct association to the event's global promotional campaign
- ... Gain access to industry leaders, policy & decision makers in the Region
- ... Distinguish your company in a world-class industry gathering
- ... Build effective network resulting in increased sales
- ... Boost your brand by increasing visibility & recognition
- ... Increase positive industry relations
